

Bachelor Thesis & Seminar (IBE, 29993)

Summer Semester 2025

Content: Within the framework of a bachelor thesis, you work independently on a problem from the field of Production, Logistics, or Business Decision Analysis. An essential part of the work deals with literature search and applying solutions procedures known from the scientific literature. Several topics require skills in Spreadsheet Modeling or VBA programming.

Applies to: Bachelor (B.Sc.) International Business and Economics

Expected prior knowledge: Interest in the management areas of Production Management, Management Science, or Decision Analysis. Preferably, this interest has been shown in successful participation in related classes such as *Introduction to Production Management* or *Project Seminar: Quantitative Methods for Business*.

Procedures: The seminar comprises an (in-person) academic skills tutorial, (online) weekly office hours, ungraded (in-person) mid-term presentations, and graded (in-person) final presentations. Guidance for Academic Writing and a template file are available on the supervisor's homepage and the eLearning page.

Registration:

See the Bachelor Thesis & Seminar information on the Dean's Office of Study Affairs' homepage.

List of Topics and introductory sources (if you want to propose a topic, visit the supervisor a.s.a.p. but before the topic distribution meeting):

Topics will be from Production Management, Management Science, or Decision Analysis.

If you have any questions, please contact the supervisor: rainer.kleber@ovgu.de.
